Cybersecurity Services Provider

Who We Are

As a trusted Cybersecurity Services Provider, we cater to a diverse range of industries including government, transportation, utilities, defense industrial base and commercial organizations.

Our end-to-end services are designed to assist organizations throughout their lifecycle, from inception to maintaining a resilient cybersecurity posture. Our boutique approach means we're not limited to one aspect of cybersecurity. Embrace the peace of mind that comes with knowing your cybersecurity is in expert hands.

We work with the CISA Assessment Evaluation and Standardization (AES) program to conduct non tier-one assessments of High-Value Assets (HVA) for Federal, State, Local, Tribal, and Territorial entities.

We are a service-disabled veteran-owned small business. At KNC Strategic Services, we believe in making a difference. We commit 10% of our annual profits to support military and veteran families in need.

US Veterans Advancing Through Learning, Opportunities and Resources (US VALOR) is a nonprofit formed by KNC that provides a **Cybersecurity Apprenticeship Program** to transitioning US military service members and new veterans. usvalor.org
